25X1

* ☐ Comment. As compared with the last reported period from 24 May through 6 June, the loading performance reported has remained approximately constant. The number of cars daily claimed by the Soviets, though slightly decreasing, was still above the normal level of 500 to 600 units. This picture may be influenced by the current transfer of worn out vehicles to the U.S.S.R.

25X1

** ☐ Comment. This breakdown supplements ☐ and closes the time gap between it and the present report. The ☐ information stated covers all the loading operations within the Soviet zone.
